SMART SPEAKERS

An internet-enabled speaker that is controlled by spoken commands and is capable of streaming audio content, relaying information, and communicating with other devices. Usually activated by a keyword/hotword. A mini version speaker might appeal to those wanting multiple smart speakers in their home, while others may prefer one with a video screen or a combination of each. The internet connection may be wired or wireless.

SMART SPEAKERS

Wifi

Amazon Echo Dot, Show (Alexa),
Google Home Pod, Nest Hub (Google),
Other Manufacturers
(stand alone but requires internet)

SMART SPEAKERS

Amazon Alexa Echo
 \$23.00 - \$80.00

SMART SPEAKERS

Amazon keyword = ALEXA

“Alexa, What’s the current temperature outside?”

“Alexa, What time is it?”

“Alexa, Set a 17 minute timer called Muffins”

“Alexa, Find a recipe for sweet chili sauce”

“Alexa, Play NPR News / 92.7 Oldies / Dean Martin Songs”

“Alexa, Call Melanie”

“Alexa, What time does the Safeway store Pharmacy on Southern and Val Vista open?”

Google keyword = OK GOOGLE

“OK Google, Convert 16” to Centimeters”

“OK Google, Play my sleep music”

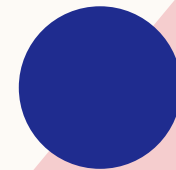

BLUETOOTH SPEAKERS

An amplifier or loudspeaker with Bluetooth wireless connectivity that is paired (pre-associated) with one or more smartphones, tablets, iPods or computers.

Unlike a Smart Speaker, there is no interaction with a Bluetooth Speaker. A BT speaker only plays what you send it.

BLUETOOTH SPEAKERS

Bluetooth Smartphone to Speaker
Tablet/iPad to Speaker
Computer/Laptop to Speaker
MANY Manufacturers

BLUETOOTH SPEAKERS

MANY Manufacturers
\$10.00 - \$250.00

Home Depot, Safeway, Target,
Circle K, Amazon, Kohls, almost
everywhere

Desktop, Portable, Wall Mount,
Shower Mount,

AC / DC / USB / Battery / Solar

SUMMARY THOUGHTS

The sound (music) from a Smart or Bluetooth speaker is much much better than that from a smartphone or tablet,

You can use a Smart Speaker just like a Bluetooth Speaker.

You can use a Bluetooth Speaker **ONLY** as a Bluetooth Speaker.

You may want to have both, for different purposes,

Smart Speakers are always listening for their keyword. You can turn off the microphone if you feel uncomfortable. We do when we are speaking on the phone to a bank, credit card company, etc.
