

Google Meet

What Is Google Meet

Google Meet is a video communication service developed by Google and released in 2017. It is one of two apps that constitute the replacement for Google Hangouts, the other being Google Chat.

Platforms: Android, Android TV, ChromeOS (Chromebooks), iOS, iPadOS, Web (browser).

Lifecycle: Google Duo > Google Hangouts > Google Chat + Google Meet.

App Origins at Google: Development Staff have 8 hrs weekly to use to do volunteer work (501c3 community efforts), or develop new & different apps for Google. This is how Gmail started out. Google Duo started so staff could collaborate across the campuses.

Pin

Effects

Options

Whiteboards (drawing, sketching ideas), change screen layout (large, small, tiles), Closed Captions, others.

No Effects, Blur Background, Really Blur BG, Many Backgrounds (rooms, fireplace, outdoors), Many Styles (color management), Interactive Animation (make yourself a pirate, cowboy, etc) Select what you want and wait 5-10 seconds for your app to transform you. Fewer Effects using browser and effects make computer work harder.

End Call / Hang Up

Google Meet is best for small organizations and individuals who want a user-friendly video conferencing solution that's already integrated with Google Drive.

Zoom is preferable for larger organizations with stricter security expectations that need to accommodate more people and provide hosts with advanced controls.

Facebook video call works well for one-on-one (or more) from within FB.

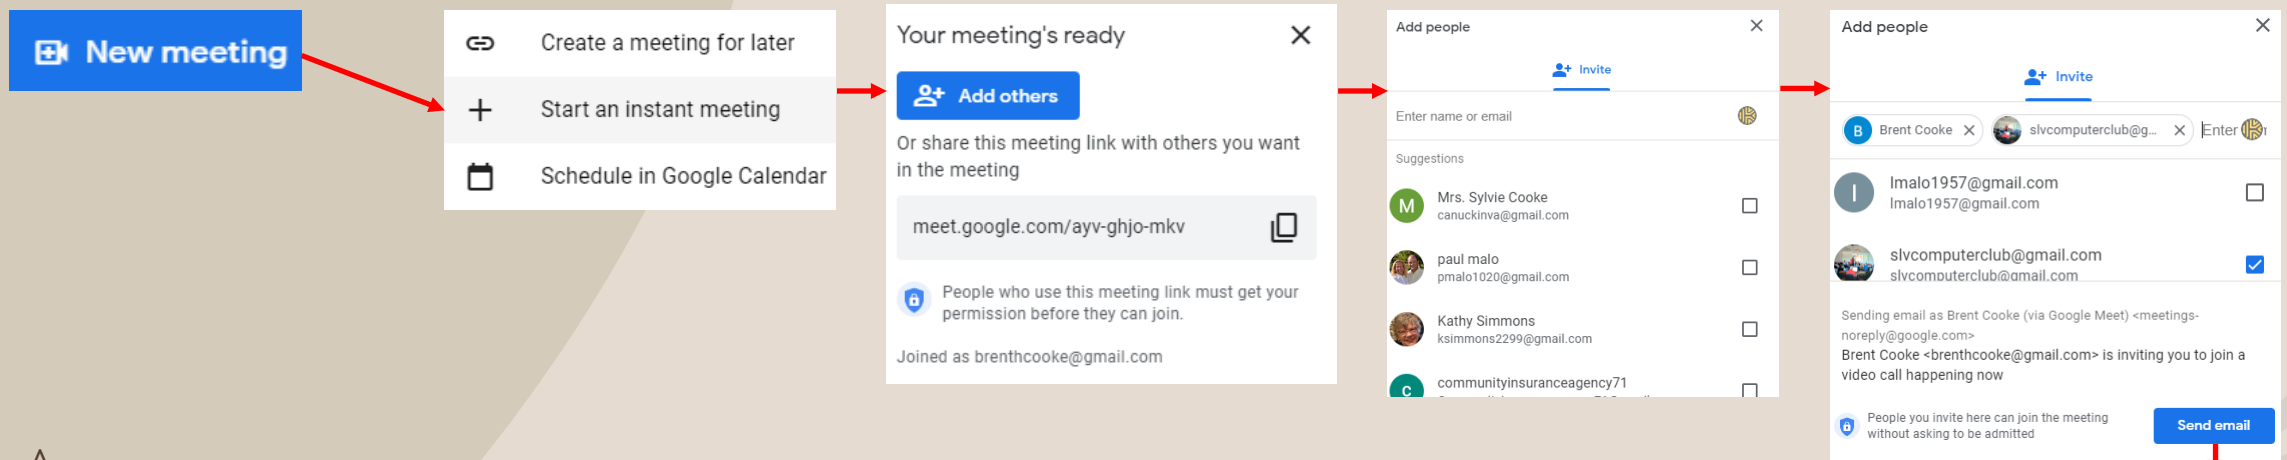

Google Meet
can connect up to 100 people “free”
for up to 60 minutes

Zoom
100 attendees, 40 minutes “free”

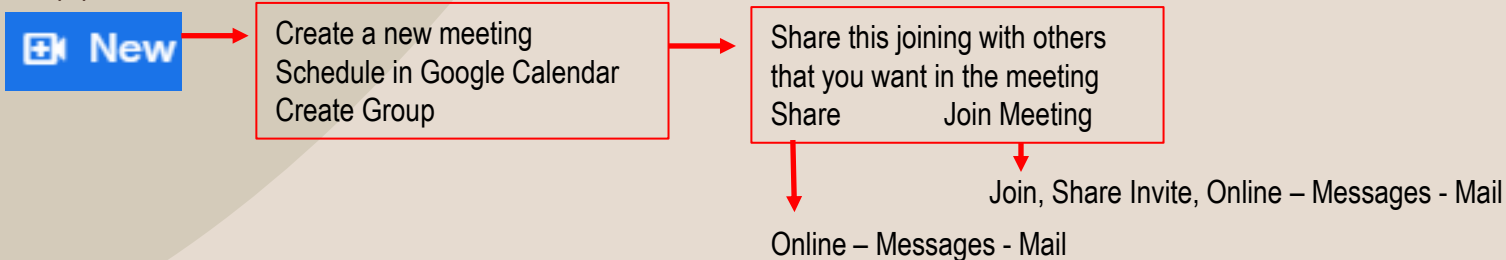

Facebook
50 people, no time limit “free”

Hello Club Members:

We are going to be doing a virtual Amazon tour on Monday, Nov. 13th at Capri Hall at 1:00 p.m. Unfortunately, the tours are only on Mondays and Thursdays. Since we have the room on Monday, that is the day we selected. If there is some reason you can't join us on Monday, in person, here is the link and you can watch it in the comfort of your home.
