- You don't need to be an astronomer to find stars or constellations in the sky, just open SkyView® Free and let it guide you to their location and identify them. SkyView Free is a beautiful and intuitive stargazing app that uses your camera to precisely spot and identify celestial objects in sky, day or night. Find popular constellations as they fade in and out while you scan across the sky, locate planets in our solar system, discover distant galaxies, and witness satellite fly-bys.

# MERLIN BIRD ID

IOS 15 or higher  
Android 6 or higher

- Merlin Bird Id will identify bird songs and calls, identify birds in a photo, save your birds to a list (document your birds – requires you to create an account), explore lists of birds near you.

## Explore Lists of Birds Near You

Merlin is powered by [eBird](#), allowing you to build custom lists of the birds you're likely to spot wherever you are. Use the filter options to explore birds for different locations or time of year, or switch to show all the species in the Bird Packs you've downloaded. Get more from the app with these [Merlin Tips and Tricks](#).
